Night work: M1 Pacific Motorway widening, Wahroonga

Dear resident,

As part of the M1 Pacific Motorway widening, work is continuing to build the northbound tunnel exit ramp, southbound tunnel entry, northern ventilation outlet and noise walls at Wahroonga. This work is being carried out on the M1 and next to the motorway between Alexandria Parade Bridge and 150 metres north of Burdett Street, Wahroonga. A map of the work area is included. Ongoing work includes:

- > excavating to refine the tunnel's shape and exit and entry ramps
- > building the northern ventilation facility, and M1 pullover and breakdown bays
- > installing more retaining walls and permanent noise walls
- > installing Intelligent Transport Systems to assist with monitoring and managing traffic flow
- > installing drainage, concreting, asphaltting, line marking and saw cutting
- > removing and trimming vegetation
- > reinstatement work including landscaping, signs and paths
- > maintenance and inspection activities.
- > signs and paths.

Work hours

Generally, the work is carried out during standard construction hours between **7am and 6pm Monday to Friday** and **8am and 1pm on Saturday**, however for the safety of motorists and workers, some of this work is carried out at night between **9pm and 5am**. Workers and vehicles access the Junction Road construction compound 24 hours a day.

How will the work affect you?

You may experience some noise but we will make every effort to minimise impacts by:

- > limiting noisy work to no more than two nights in a row and no more than three nights in one week at the same location
- > consulting with directly affected residents and providing respite for residents most affected by noise
- > using non-tonal reversing beepers on all machinery
- > turning off equipment and vehicles when not in use
- > using solar-powered lighting towers
- > directing noise generating equipment away from residential properties where possible.
