NorthConnex – Update on tunnelling in your area

Dear resident,

Tunnel lining, fit out and road paving is progressing.

In addition, trenching has now been completed in this area, with final lining and other activities continuing along the alignment for the next six weeks. This may be noticeable from time to time as the project team moves along various sections of both tunnels. The Wilson Road compound will continue to provide above ground support for tunnelling activities. Please see the maps in this notification to locate where work might be near you.

Work hours

The work will be carried out 24 hours a day, seven days a week although as much work as possible will be done during the day.

How will the work affect you?

The project team will continue to work with residents to minimise disruptions.

Equipment

This work will use excavation hammers, saw cutters and concrete pavers between 40 and 68 metres underground.

Contact us

You can visit www.northconnex.com.au to stay in touch with the latest project information including tunnelling progress and activities in your area. We thank you for your patience, and if you have any questions or complaints, please don't hesitate to call us on 1800 997 057, email enquiries@northconnex.com.au or visit the NorthConnex Community Information Centre at 118 Yarrara Road, Pennant Hills, open Monday to Wednesday from 9am to 1pm.

Yours sincerely,

NorthConnex Project Team
