Night work – Pennant Hills Road southbound realignment

Dear resident,

As part of ongoing work to build the NorthConnex southbound tunnel exit, night work is continuing to prepare for a traffic switch onto the new, permanent southbound lanes on Pennant Hills Road, between Copeland Road and the Hills M2 Motorway. A map of the work area is provided overleaf.

Work is also continuing at the Southern Interchange to complete tunnel construction. The future southbound tunnel exit onto Pennant Hills Road next to the Pennant Hills Golf Course will be used as an access point to bring supplies into the tunnel. A turntable will be installed so vehicles entering the site southbound can be turned to face northbound and travel into the tunnel.

The traffic switch work on the southbound lanes will involve:

- > moving and installing concrete barriers
- > excavation, piling and installing drainage
- > concreting and asphaltting
- > removing existing line marking and painting new line marking
- > relocating traffic lights and street lights.

Once the work is complete, traffic travelling southbound along Pennant Hills Road will be moved onto the new lanes.

Work hours

This work is expected to be completed by late December 2019, weather permitting. To reduce impacts on road users and ensure the safety of workers and motorists, this work is being carried out at night from 8pm to 5am between Sunday and Thursday.

How will the work affect you?

You may experience some noise during some of these activities. We will make every effort to minimise impacts by:

- > using non-tonal reversing beepers on all machinery
- > turning off equipment and machinery when not in use
- > using noise blankets where possible
- > not working more than three nights a week and no more than two nights consecutively for high noise generating activities
- > carrying out less noisy work on other nights of the week.

BUILDING OUR FUTURE

 Transurban

Traffic management

There will be intermittent lane closures on Pennant Hills Road as part of this work. Traffic management and signage will be in place to ensure the safety of motorists, residents and workers.

Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.

Equipment

Plant and equipment for this work includes solar-powered light towers, road saws, paver, hammer drill, hand tools, rattle guns, excavators, cranes, water carts, generators, trucks, street sweepers and line-marking vehicles.

Contact us

We thank you for your patience, and if you have any questions or complaints, please don't hesitate to call us on 1800 997 057, email enquiries@northconnex.com.au or visit the NorthConnex Community Information Centre at 118 Yarrara Road, Pennant Hills, open Monday to Wednesday from 9am to 1pm.

Yours sincerely,

NorthConnex Project Team

Location of work, West Pennant Hills
