Southern Interchange: Installation of directional signage on Pennant Hills Road, West Pennant Hills

Dear resident,

Work is continuing on the NorthConnex project's Southern Interchange, at the intersection of Pennant Hills Road and the Hills M2 Motorway. Tunnel excavation is complete and work at the site is focussed on delivering the permanent tunnel facilities, buildings and signage.

Remaining works that are expected to be complete by late November 2018, weather permitting, include:

- > installing the signage and support gantry
- > reinstating the median
- > asphaltting.

To assist southbound motorists who will travel through the Southern Interchange following the opening of NorthConnex, permanent directional signage is being installed in the Pennant Hills Road median between Aiken Road and Copeland Road (see diagram overleaf).

At the conclusion of installation work, the signage will be covered to avoid confusion for motorists until the establishment of the permanent Pennant Hills Road southbound lanes. The final traffic switch will occur early to mid December.

Work hours

For the safety of motorists and workers and to minimise traffic disruptions, signage will be installed at night, between 9.30pm and 4am from Sunday to Thursday.

Traffic management

Traffic controllers and pedestrian management will be in place for the safety of motorists, residents and workers. Lane closures will also be in place on the south and northbound carriageways. Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.

Equipment

Plant and equipment being used for this work includes excavators, saw cutters, trucks, plate vibrators, concrete trucks, rollers, mobile cranes, profilers, jackhammers, vibrators, asphalt pavers, bobcats, scissor lifts, vacuum trucks, concrete pumps, street sweepers, watercarts, and hand tools.
