Night work update: Hills M2 Motorway at Yale Close Bridge, North Rocks

Dear resident

As part of ongoing work to widen the Hills M2 Motorway, work to install bridge support beams will take place on Yale Close Bridge on **Friday 17 February and Saturday 18 February 2017, between 7pm and 9am, and Sunday 19 February 2017, between 8pm and 5am, weather permitting**. A map of the work area is provided.

Due to the high traffic volumes on the Hills M2 Motorway and to ensure the safety of workers and motorists the work will take place at night. If the work is unable to take place as scheduled, it will be carried out on the following weekend on Friday 24 February, Saturday 25 February and Sunday 26 February 2017.

NorthConnex will continue to carry out night work at a number of locations over 4.8 kilometres on the Hills M2 Motorway between Pennant Hills and Windsor Road. Work will be carried out at night between 8pm and 5am Sunday to Thursday to ensure the safety of motorists and workers. The main work activities include:

- building an additional westbound lane between Pennant Hills Road and Windsor Road. The new lane will allow southbound motorists exiting the new NorthConnex tunnel to merge safely with westbound traffic on the M2 Motorway
- lengthening the Barclay Road Bridge to accommodate the new westbound lane on the Hills M2 Motorway
- modifying the eastbound off-ramp at Pennant Hills Road to create a new northbound entry to the NorthConnex tunnel and a cycleway structure
- modifying the Pennant Hills Road westbound on-ramp to the M2 to prepare for the southbound exit from the NorthConnex tunnel.

A full list of construction activities are listed in the table enclosed.

Plant and equipment for this work includes cranes (various sizes), light vehicles, lighting towers, rattle gun, generators, knuckle boom lift, trucks, rollers, concrete trucks, excavators, core drill, street sweeper, water cart, concrete saws, power tools and hand tools.

Australian Government

BUILDING OUR FUTURE

Transurban

You may experience noise during some of these activities and we will make every effort to minimise impact by:

- consulting with directly affected residents
- not working more than three nights a week and no more than two nights consecutively for noisy work
- using non-tonal reversing beepers on all machinery
- turning off equipment and vehicles when not in use
- using solar-powered lighting towers.

Traffic changes, traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers.

Please allow extra travel time and visit livetraffic.com, download Live Travel App or call the Transport Management Centre 132 701 for the latest information. Access will be maintained for motorists at all times.

If you have any questions or complaints please don't hesitate to call us on 1800 997 057 (24 hours), email enquiries@northconnex.com.au or visit the NorthConnex Community Information Centre at 118 Yarrara Road, Pennant Hills, open weekdays, from 9am to 5am.

Yours sincerely

NorthConnex Project Team
