Establishment of the Oakes Road site compound

Dear resident

As part of ongoing work to build the tunnel exit and widen the Hills M2 Motorway, a site compound will be established within the Hills M2 corridor off Oakes Road, Carlingford (behind Coral Tree Drive). A map of the area is provided overleaf.

Establishment of the site will start on Monday 20 February 2017 and take one month to complete, weather permitting. The work will be carried out during standard construction hours from 7am to 6pm on weekdays and 8am to 1pm on Saturdays.

The approved site will be used as an ancillary facility and support construction activities required for the Hills M2 Motorway integration work. This will include areas for laydown, amenities and storage of materials.

The main work activities include:

- > Foundation activities
- > Delivery and installation of the compound
- > Environmental controls.

Once the site compound is established, construction activities to build the tunnel exit and widen the Hills M2 will continue. Access in and out of the site will be via Oakes Road.

Plant and equipment for this work includes excavators, rollers, concrete trucks, light vehicles, rattle gun, generators, trucks, street sweeper, water cart, power tools and hand tools.

You will experience noise during some of these activities and we will make every effort to minimise impact by:

- > Consulting with directly affected residents
- > Using non-tonal reversing beepers on all machinery
- > Turning off equipment and vehicles when not in use.

Australian Government

BUILDING OUR FUTURE

Transurban

Traffic changes, traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers.

If you have any questions or complaints, please don't hesitate to call us on 1800 997 057 (24 hours), email enquiries@northconnex.com.au or visit the NorthConnex Community Information Centre at 118 Yarrara Road, Pennant Hills, open weekdays, from 9am to 5am.

Yours sincerely
