Day and night work update: M1 Pacific Motorway widening, Wahroonga

Dear resident

Further to our February 2017 notification, day and night work will continue to build the new two lane southbound road bridge which will take traffic from the M1 Pacific Motorway to Pennant Hills Road. It is expected that work to complete the road bridge will take up to three months to complete (weather permitting).

This work will be carried out on the M1 Pacific Motorway and adjacent to the motorway between Pennant Hills Road and 300 metres north of Alexandria Parade Bridge, Wahroonga. A map of the area is attached.

The main work activities include installing barriers, lights, signals and signage, modifying traffic lights, clearing trees, replacing noise walls, relocating services, piling, road pavement work, hammering, concreting, asphaltting, saw cutting, and line marking.

Generally, this work will be carried out during standard construction hours between 7am and 6pm Monday to Friday and 8am and 1pm on Saturday however to ensure the safety of motorists and workers, some of this work will be carried out at night. Night work will be carried out between 9pm and 5am Sunday to Friday. There will be no work on Saturday nights.

Plant and equipment for this work includes cranes, excavators, bob cat, piling rig, jack hammers, surface profilers, heavy and light vehicles, lighting towers, generators, scaffolding, rattle guns, hammer drills, grinders, concrete trucks, street sweepers, water carts and pumps, elevated work platforms, concrete saws and pumps, core drills, line marking and removal plant, as well as hand tools.

You will experience noise during some of these activities and we will make every effort to minimise impact by:

- > scheduling noisy work to take place no more than two nights in a row and limiting noisy work to no more than three nights in one week at the same location
- > providing a one hour respite between three hour blocks of continual work generating high noise
- > consulting with directly affected residents

Australian Government

BUILDING OUR FUTURE

- > providing respite for residents most affected by noise
- > using non-tonal reversing beepers on all machinery
- > turning off equipment and vehicles when not in use
- > using solar-powered lighting towers and directing light away from residential properties where possible
- > directing noise generating equipment away from residential properties where possible.

Traffic changes, traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers.

Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.

If you have any questions or complaints, please don't hesitate to call us on 1800 997 057 (24 hours), email enquiries@northconnex.com.au or visit the NorthConnex Community Information Centre at 118 Yarrara Road, Pennant Hills, open from Monday to Wednesday, from 9am to 1pm.

Yours sincerely

NorthConnex Project Team

Location of work: M1 Pacific Motorway, Wahroonga
