Day and night work: Pearces Corner, Pennant Hills Road, M1 Pacific Motorway and Hewitt Avenue, Wahroonga

Dear resident,

Work is continuing to widen Pennant Hills Road and the M1 Pacific Motorway as part of the NorthConnex project. This includes:

- > building the tunnel entry and exit ramps on the M1 Pacific Motorway between Pennant Hills Road and Pacific Highway
- > upgrading the intersection at Pennant Hills Road and M1 Pacific Motorway
- > replacing the shared path between Hewitt Avenue and Pennant Hills Road.

Current work

A map of the work area is attached.

- > work to upgrade the intersection at Pennant Hills Road and M1 Pacific Motorway is underway and involves realigning kerbs and medians, and installing new traffic signals
- > earthwork and retaining wall construction for the shared path connecting Hewitt Avenue and Pennant Hills Road is underway. Services installation and reconstruction of the cul-de-sac will start in early 2019
- > installation of foundations and cabling for traffic information systems has been completed, work to install cameras, signs and overheight detectors will be carried out in stages from early 2019
- > ongoing work includes relocating barriers, hoarding, signage, street lights and traffic lights; trimming vegetation; excavating; relocating and installing services and drainage; constructing road pavement; piling; concreting; asphaltting; saw cutting; hammering; line marking; landscaping and maintenance.

How will the work affect you?

You will experience noise during this work, we will make every effort to minimise impacts by:

- > restricting noisy work to no more than two nights in a row and not more than three nights in one week at the same location
- > consulting with and providing respite for directly affected residents
- > using non-tonal reversing beepers on all machinery

Work hours

7am to 6pm Monday to Friday,
8am to 1pm Saturdays

For the safety of motorists and workers, work may be carried out outside of these hours, in line with our environmental approvals.

Tunnel excavation, associated above ground activities and access to compounds is carried out **24 hours a day**.

Australian Government

BUILDING OUR FUTURE

Transurban

- > turning off equipment and vehicles when not in use
- > using solar-powered lighting towers
- > directing noise generating equipment away from residential properties where possible.

Traffic management

There will be a temporary pedestrian diversion for three months from Monday 1 February while the Pennant Hills Road southbound slip lane to the M1 Motorway is realigned, weather permitting. We have attached a map of the pedestrian diversion.

There will continue to be intermittent lane closures and detours at night on the M1 Pacific Motorway, Pacific Highway and Pennant Hills Road. Other temporary footpath diversions may be in place for pedestrians. Access will be maintained for motorists and residents at all times. Traffic management and signage is in place for the safety of motorists, residents and workers.

Please allow extra travel time and visit livetraffic.com, download Live Travel App or call the Transport Management Centre 132 701 for the latest information.

Plant and equipment

Plant and equipment includes heavy and light vehicles, lighting towers, scaffold, cranes, elevated work platforms, generators, excavators, piling rigs, jackhammers, hammer drills, grinders, concrete saws, concrete trucks, street sweepers, water carts, vacuum trucks, asphaltting and pavement machinery, rollers, line marking and removal plant, power and hand tools.

Yours sincerely

NorthConnex Project Team
