

29 March 2018

Dear resident,

Night work: M1 Pacific Motorway

Night work to excavate and install pipes for stormwater drainage will be carried out at the Northern Ventilation Facility from **Wednesday 4 April, between 9pm and 5am, for three consecutive nights**, weather permitting. If work is delayed, it will be done on the next available night shift. Night work is carried out between 9pm and 5am Sunday to Friday. There will be no work on Saturday nights. For the safety of workers, lane closures will be in place on the M1.

Vehicle access will be via the M1 Pacific Motorway. Traffic control and pedestrian management will be in place for the safety of motorists, residents and workers.

Plant and equipment to be used includes a generator, lighting tower, excavator with hammer attachment, power tools and hand tools. You may experience noise impacts but we will make every effort to mitigate this by minimising vehicle movements and shielding with noise blankets.

Please call the Project Information Line on 1800 997 057 or email enquiries@northconnex.com.au if you have any questions or complaints or would like to register for an SMS alert to notify of night work.

Thank you for your patience.

Kind regards,

The NorthConnex Team
