Night work: Barclay Road bridge lengthening, North Rocks

Dear resident

As part of the M2 Hills Motorway widening, finishing works are being carried out at the Barclay Road bridge. Work activities include:

- > installing cover plates on the pedestrian walkway either side of the Barclay Road bridge
- > installing panels on the eastern side of the bridge from the Hills M2 Motorway
- > mulching vegetated area at the Barclay Road commuter car park
- > spray painting fence posts.

For the safety of motorists and workers, this work will be carried out from **Tuesday 1 May to Thursday 3 May between 8pm and 5am**, weather permitting. If work is delayed, it will be done on the next available night shift.

Plant and equipment to be used includes crane, generators, lighting towers, hammer drill, wheelbarrow, elevated work platform, spray painter, power tools and hand tools.

You will experience noise during some of these activities and we will make every effort to minimise impact by:

- > scheduling noisy work to take place no more than two nights in a row and limiting noisy work to no more than three nights in one week
- > carrying out noisier activities early in the shift
- > consulting with directly affected residents
- > using non-tonal reversing beepers on all machinery
- > turning off equipment and vehicles when not in use
- > directing noise generating equipment away from residential properties where possible.

Workers and vehicles will continue to access the Barclay Road construction compound 24 hours a day until May 2019.

Lane closures, traffic control and pedestrian management will be in place for the safety of motorists, residents and workers. Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.
