## Night work on the Hills M2 Motorway: installation of intelligent transport communication systems

Dear resident,

NorthConnex is upgrading the intelligent transport communication systems on the Hills M2 Motorway. The new system will connect the M2 and M7 motorway control centres to help monitor and improve traffic flows in the area when the NorthConnex tunnel is operational.

We will carry out night work to install and upgrade service pits and conduits at 14 locations along the 2.7 kilometre stretch of the Hills M2 Motorway at Baukham Hills between the Westlink M7 Motorway and Windsor Road. A map of the work area is included overleaf.

Work is scheduled to start on **Sunday 13 May** and will take about four months to complete, weather permitting.

To ensure the safety of motorists and workers this work will generally be carried out at night **between 7pm and 5am, Sunday to Thursday** and **between 7pm and 9am, Friday and Saturday**.

Work activities will include tree trimming, excavating, horizontal drilling, concreting and backfilling.

Plant and equipment includes mobile cranes, light vehicles, lighting towers, generators, concrete trucks, pumps and vibrators, vacuum excavation truck, excavators with attachments, concrete saws, jack hammers, hammer drill, grinders, power tools and hand tools.

You may experience some noise during this work and we will make every effort to minimise impacts by:

- consulting with directly affected residents
- not working more than three nights a week and no more than two consecutive nights for noisy work
- using non-tonal reversing beepers on all machinery
- turning off equipment and vehicles when not in use
- using solar-powered lighting towers.

Lane closures, traffic control and pedestrian management will be in place to ensure the safety of motorists, cyclists, residents and workers.

Please allow extra travel time and visit [livetraffic.com](http://livetraffic.com), download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.
