Day and night work: installation of permanent electronic message sign on Pacific Highway, Waitara

Dear resident,

From **Tuesday 13 June 2017** work to install a permanent electronic message sign will continue north of the corner of Pacific Highway and Carden Avenue, Waitara, outside Phil McCarroll Toyota. This work will be carried out in stages and is expected to be completed by August 2017.

Work will include:

- > trenching work for power and telecommunications
- > installing the permanent electronic message sign
- > installing a CCTV camera to monitor the sign
- > building a new kerb and general concrete works
- > backfilling and restoring the road surface, footpath and verge at the completion of the work
- > connection and testing.

Plant and equipment for this work includes saws, hand held drills, jackhammers, excavators, dump trucks, compaction equipment, vacuum trucks, cranes, piling equipment, concrete trucks, lighting towers and generators.

To minimise impacts on traffic and to ensure the safety of workers and motorists, the majority of work will be carried out at night **between 9pm and 5am Sunday to Friday**. We will notify impacted residents in advance of work occurring. Where possible, some work will be done during standard construction hours of between 7am and 6pm Monday to Friday and between 8am and 1pm Saturday. There will be no work carried out on Saturday nights.

Work to modify the kerb will be carried out intermittently during the day and night between **5pm on Saturday 17 June to 5am Monday 19 June 2017 and 5pm on Saturday 24 June to 5am Monday 26 June 2017**. A partial lane closure will be in place for the duration of work, including all day Sunday 18 June 2017 and Sunday 25 June. If work is unable to go ahead it will be rescheduled to the next available night.

You may experience increased noise during some of these activities and we will make every effort to minimise impacts by:

- > turning off machinery when not in use
- > using non-tonal reversing beepers on all machinery
- > parking away from homes
- > noise monitoring to ensure compliance with noise limits
- > scheduling work to take place no more than two nights in a row and limiting work to no more than three nights in one week at the same location
- > ensuring that lighting is directed away from residences as much as practicable
- > coordinating respite for residents most affected by noise.

BUILDING OUR FUTURE

Transurban

Temporary traffic changes

Partial lane closures will be required and traffic will be maintained in both directions under stop/slow traffic control. Traffic management will be in place when work is carried out to ensure the safety of motorists, residents and workers. This will include temporary diversions of the footpath in the immediate vicinity of the work as well as the kerbside work, outlined above.

Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.

We thank you for your patience, and if you have any questions or complaints, please don't hesitate to call us on **1800 997 057**, email enquiries@northconnex.com.au or visit the NorthConnex Community Information Centre at 118 Yarrara Road, Pennant Hills, open weekdays from 9am to 5pm.

Yours sincerely,

NorthConnex Project Team
