Day and night work: installation of permanent electronic message sign and CCTV on the Pacific Highway, Wahroonga

Dear Resident

As part of ongoing work to build the tunnel entry and exit points, work to install a permanent electronic message sign and CCTV will be continuing on the Pacific Highway, Wahroonga, outside 1722 to 1728 Pacific Highway from Monday 15 October 2018. A map of the work area is overleaf. This work is expected to be completed by the end of the week, weather permitting. The technology is being installed to ensure tunnel safety and inform motorists about traffic conditions.

Work will include:

- > trenching works for power and telecommunications
- > piling work for sign footings
- > installing sign footings including drilling and pouring of concrete
- > building new kerbs and general concrete works
- > backfilling and restoring the road surface, footpath and verge at the completion of the work
- > connection, testing and completion works.

Plant and equipment for this work includes saws, hand held drills, jackhammers, excavators, dump trucks, compaction equipment, vacuum trucks, cranes, piling equipment, concrete trucks, bobcat and attachments, lighting towers and generators.

To minimise impacts on traffic and to ensure the safety of workers and motorists, the majority of work will be carried out at night **between 9pm and 5am Sunday to Friday**. We will notify impacted residents in advance of work occurring. Where possible, some work will be done during standard construction hours of 7am and 6pm Monday to Friday and 8am and 1pm Saturday. There will be no work carried out on Saturday nights.

You may experience increased noise during some of these activities and we will make every effort to minimise impacts by:

- > turning off machinery when not in use
- > using non-tonal reversing beepers on all machinery
- > parking away from homes
- > noise monitoring to ensure compliance with noise limits
- > scheduling work to take place no more than two nights in a row and limiting work to no more than three nights in one week at the same location
- > ensuring that lighting is directed away from residences as much as practicable
- > coordinating respite for residents most affected by noise.

Australian Government

BUILDING OUR FUTURE

 Transurban

Temporary traffic changes

Partial lane closures will be required and traffic will be maintained in both directions under stop/slow traffic control. Traffic management will be in place when work is carried out to ensure the safety of motorists, residents and workers. This will include temporary diversions of the footpath in the immediate vicinity of the work.

Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.

We thank you for your patience, and if you have any questions or complaints, please don't hesitate to call us on **1800 997 057**, email enquiries@northconnex.com.au or visit the NorthConnex Community Information Centre at 118 Yarrara Road, Pennant Hills, open Monday to Wednesday from 9am to 1pm.

Yours sincerely,

NorthConnex Project Team
