## Site investigation work – Pennant Hills Road, Beecroft

Dear Resident

Further to previous notification NCXC02 (July 2018), we will be carrying out additional site investigation work between **Monday 25 March** and **Friday 26 April**.

The work will be carried out at various locations on Pennant Hills Road between the intersections with Oratava Avenue and Karloon Road. Some work will also be carried out on Hannah Street, Oratava Avenue and Karloon Road near the intersections with Pennant Hills Road.

We have included a map to show the location of the work.

### Our work schedule

We will be on site to carry out **eight night shifts** between **Monday 25 March** and **Friday 26 April**, weather permitting. Our night work hours will be from **8pm** to **5am** on **Sunday to Friday**.

We will not work any more than **two consecutive nights** or **three nights in any week**, we do not expect to be in front of any individual house for more than **two nights in total**.

You will also notice us working in this area during the day in this period.

### How will the work affect you

The site investigation works will involve locating underground services and utilities, surveying topography and surface features, drilling, minor excavation and backfilling, and minor footpath disturbance and reinstatement. You will experience noise during the work, we will make every effort to minimise impacts by:

- > scheduling noisy work to take place no more than two nights in a row and limiting noisy work to no more than three nights in one week at the same location
- > using non-tonal reversing beepers on all machinery
- > turning off equipment and vehicles when not in use
- > using noise mats where possible
- > noise monitoring
- > parking project vehicles away from homes

#### Work hours

Day – 8am to 6pm Monday to Friday  
Night – 8pm to 5am Monday to Friday

#### More information

Call 1800 997 057 (24 hours), email  
ncxcommunitymanager@transurban.com.

- > ensuring that lighting is directed away from residences as much as practicable.

### Plant and equipment

Plant and equipment that will be used includes a vacuum truck, potholing truck, drill rig, demolition saw, vibrating plate, service scanning trolley, survey equipment and hand tools.

### Traffic changes

Traffic on Pennant Hills Road, access to driveways and bus stops will be maintained at all times. There will be lane closures, traffic control and pedestrian management in place to ensure the safety of motorists, residents and workers. Please allow extra travel time and visit [livetraffic.com](http://livetraffic.com), download Live Traffic App or call the Transport Management Centre 132 701 for the latest information. For more information please call 1800 997 557 or email [ncxcommunitymanager@transurban.com](mailto:ncxcommunitymanager@transurban.com).

You will be notified before night work directly outside your property. Thank you for your patience.

Yours sincerely

**NorthConnex Project Team**
