Night work: Hills M2 Motorway

Dear Resident,

Work is continuing on the \$3 billion NorthConnex project to:

- > build the tunnel entry portals and structures on the Hills M2 Motorway and Pennant Hills Road
- > upgrade the M2 eastbound off-ramp and westbound on-ramp at Pennant Hills Road
- > construct the Motorway Operations Complex (MOC) at the M2 and Pennant Hills Road intersection to manage safe and efficient tunnel operation.

As part of this work, we will be reinstating sections of the turfed median on the Hills M2 Motorway. We will be on site for **five shifts** at each location from **Wednesday 26 June** to **Sunday 28 July**, weather permitting. Work hours will be between **9pm** and **5am** from **Sunday** to **Friday**. Maps of the work areas are provided.

How will the work affect you?

You will experience noise during this work. We will make every effort to minimise impacts by:

- > using non-tonal reversing beepers on all machinery
- > turning off equipment and vehicles when not in use
- > using lighting towers only where necessary
- > scheduling noisier work for completion earlier in the evening where possible
- > avoiding shouting or unnecessary noise and using radio communication.

Work hours

7am to 6pm Monday to Friday,
8am to 1pm Saturdays

For the safety of motorists and workers, work may be carried out outside of these hours, in line with our environmental approvals.

Tunnel excavation, associated above ground activities and access to compounds is carried out **24 hours a day**.

BUILDING OUR FUTURE

Transurban

Traffic management

There will be lane closures on the Hills M2 at night. Traffic management and signage will be in place to ensure the safety of motorists, residents and workers.

Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.

Plant and equipment

The project team will use heavy and light vehicles, concrete trucks, vacuum trucks, excavators with drills and hammer attachments, cranes, concrete saws, jackhammers, street sweepers, lighting towers, generators, power tools and hand tools.

Thank you for your patience during this important work.

Yours sincerely,

NorthConnex Project Team
