Changes to site access arrangements: Southern Compound

Dear Resident,

Work is continuing on the \$3 billion NorthConnex project to:

- > build the tunnel entry portals and structures on the Hills M2 Motorway and Pennant Hills Road
- > upgrade the M2 eastbound off-ramp and westbound on-ramp at Pennant Hills Road
- > demobilise in preparation for finishing work and site rehabilitation
- > prepare the Hills M2 Motorway for traffic along its new alignment.

We will shortly begin building the final alignment of Pennant Hills Road between the Hills M2 Motorway and Eaton Road. We will be:

- > building new kerb ramps and a footpath
- > re-building the concrete centre median on Pennant Hills Road
- > building new storm water drains
- > re-surfacing the road and painting new line marking.

To support this work and allow for the removal of temporary site offices, the access driveway on Pennant Hills Road will be closed for about three months. During this time, all vehicles will enter and exit Southern Compound via Eaton Road. This change will occur between mid-December and early January and we will update residents closer to the date.

We have included a map of the work area and the new driveway access over the page.

Work hours

7am to 6pm Monday to Friday,
8am to 1pm Saturdays

For the safety of motorists and workers, work may be carried out outside of these hours, in line with our environmental approvals.

Tunnel construction, associated above ground activities and access to compounds is carried out **24 hours a day**.

Use of the Southern compound is extended to June 2020.

BUILDING OUR FUTURE

Transurban

Traffic management

A traffic controller will manage all vehicle movement in and out of the Southern Compound via the Eaton Road driveway. Drivers needing to access Southern Compound will be required to radio the traffic controller on approach to the compound to avoid queues forming on Eaton Road. Vehicle access from the Southern Compound during peak hours will be limited.

Thank you for your co-operation and patience in 2019 as we worked towards delivering the project.

Yours sincerely,
NorthConnex Project Team
